

Working together to preserve our coastlines

Environmental best practices guidelines for beach bars

I pledge to promote the following practices:

1. Provide educational material and information for the surrounding environment.
2. Conserve and keep the beachfront and surrounding areas clean.
3. Place recycling bins, sort waste and recycle.
4. Minimize water and energy consumption and promote the use of renewable energy sources.
5. Keep the establishment in good condition and adopt sustainable maintenance practices.
6. Prioritize the use of eco-friendly materials and products on a daily basis.
7. Encourage the consumption of sustainable, locally grown products with little or no packaging.
8. Collaborate with the local community and authorities involved with the beach.
9. Make an effort to hire locally.
10. Act as a catalyst for compliance in conserving the coastal area.
